

# The Micro Brewery Midtfyns Bryghus

*New beer of the year*

## RUSSIAN IMPERIAL STOUT

Award by The Danish Beer Enthusiasts

**Midtfyns  
Bryghus**

The brewery "Midtfyns Bryghus" was founded in 2004 in a former butcher shop in Brobyværk, from where the first beer was launched in 2005. Eddie Szweda bought the brewery in 2006.

During this past decade Midtfyns Bryghus has experienced vast annual growth rates and we have gone from a position as a minor local unknown micro brewery to a critically acclaimed craft brewery with strong national presence and a growing international representation.

Our product range of top fermented beers is varied, we do not produce one beer for the general palate, instead we strive to offer a product range where there always will be something for everyone.

### AVAILABLE IN
